Authorization Requirements

Authorization is required for most substance abuse services, including those referred through the Early Periodic Screening, Diagnostic and Treatment (EPSDT) program. Use the Authorization Criteria search function in the Provider Web Portal at www.medicaid.nv.gov to verify which services require authorization. Authorization Criteria can be accessed on the [EVS Login](#) webpage under Resources (you do not need to log in). For questions regarding authorization, call Hewlett Packard Enterprise (800) 525-2395 or refer to MSM Chapter 400 Attachment B. - FA-11D Substance Abuse/ Behavioral Health Authorization Request

Incomplete requests may be pended for additional information. Provider submitting request has five business days from the date that the information is requested to resubmit complete or corrected information or a technical denial will be issued.

Request timelines

- **Initial requests services:** It is recommended that the request be submitted 5-15 business days before the anticipated start date of service; however, submit no more than 15 business days *before* and no more than 15 calendar days *after* the start date of service.
- **Continued service requests:** If the recipient requires additional services or dates of service (DOS) beyond the last authorized date, you may request review for continued service(s) prior to the last authorized date. The request must be received by Hewlett Packard Enterprise by the last authorized date and it is recommended these be submitted 5 to 15 days prior to the last authorized date.
- **Unscheduled revisions:** Submit whenever a significant change in the recipient’s condition warrants a change to previously authorized services and provide additional clinical information to document the need for the additional requested units/services. Must be submitted during an existing authorization period and prior to revised units/services being rendered. The number of requested units should be appropriate for the remaining time in the existing authorization period. Note that the earliest start date may be date of submission of request and end date remains the same as previously authorized services.
- **Retrospective request:** Submit no later than 90 days from the recipient’s Date of Decision (i.e., the date the recipient was determined eligible for Medicaid benefits). All authorization requirements apply to requests that are submitted retrospectively.
